EXPERIENCE

Freelance Shopify Theme Developer, Collaboration with Local Freelancers

Jun 20, 2023 - Present

I collaborate with local freelancers, including marketers and designers, as their lead technical expert for complex coding. Together, we deliver high-quality, customized solutions based on client requirements.

PROJECTS

Product bundling without apps in Shopify

1. The customer will see the products in the cart drawer to be paid for.
2. There are options for merchants to select products.
3. Completely made with raw JavaScript and utilizing Shopify's built-in systems.

Quantaslide— A Custom Shopify Theme, made from scratch

1. Developed a fully custom Shopify theme from scratch using Liquid, HTML, CSS, and JavaScript with Bootstrap integration.
2. Implemented responsive design across mobile and desktop, optimized performance.
3. Demonstrated proficiency in creating a custom shopify theme and care about the theme customization settings for the merchants.

ABOUT ME

I have hands-on professional experience as a freelance shopify theme developer using the core web technologies such as HTML and JavaScript. I have collaborated closely with store owners, marketing managers, and local freelancers to deliver coding-focused work.

Through this journey, I learned how to write code in a scalable way and maintainable way. Communicate efficiently with non-technical people, handle their work, and let them explain what I did.

SKILLS

HTML, Liquid, CSS, JavaScript
Shopify Theme Development
Python, Django
SQL, MySQL, Relational & Non-Relational Databases

LANGUAGES

English (*Conversational*)
